CURRENT RANGE

COMPLIANCE

To achieve our goal in providing quality products we have to be industry specification compliant. We are always striving hard to maintain and improve our quality by measuring the quality and performance of our safety footwear through different methods.

ASSURANCE

EN ISO 20345 & NRCS (National Regulator for Compulsory Specifications)

All Schroyer Safety Footwear & Apparel is CE EN ISO 20345 standard and are NRCS cleared for use and sale in the Republic of South Africa. In addition we have submitted all our products to the NRCS for the award and endorsements of the NRCS certification, this will bear the NRCS number, name and brand. This is to give our valued customer the added assurance we are constantly striving for

ACCREDITATION

The National Regulator for Compulsory Specifications (NRCS) was established on 1 September 2008, in accordance with the provisions of the National Regulator for Compulsory Specifications Act, (Act no.5 of 2008) (NRCS Act). It emerged as an independent organisation from the original Regulatory Division of the South African Bureau of Standards and falls within the area of responsibility of the Department of Trade and Industry (the dti).

The NRCS's mandate includes promoting public health and safety, environmental protection and ensuring fair trade. This mandate is achieved through the development and administration of technical regulations and compulsory specifications as well as through market surveillance to ensure compliance with the requirements of the compulsory specifications and technical regulations. NRCS stakeholders include the South African Government, industry and the citizens.

Further info go to www.nrsc.org.za

EN ISO 20345:2011 STANDARD is the current standard and unlike the previous standards all foot wear manufactured after the 31st of July 2013 must meet this standard, it doesn't mean that footwear made before that date is now obsolete. What it means is that footwear produced after that date, must meet the new standard, with tougher minimum requirements that safety footwear must be successfully tested against. This standard specifies all safety footwear must have toe protection, in addition to different protective features.

EN ISO 20345 - CERTIFIED SAFETY FOOTWEAR CC

BEE COMPLIANCE

Container Supplies & Services CC regards itself as a loyal and proud South African company and is fully BEE compliant. The company believes in broad-based black economic empowerment, and is committed to its objectives set out by the government. This is yet another one of our strongest beliefs as we need to progress South Africa and Africa as a whole. We believe that BEE progression is important to promote equality in South Africa on the economic and social front. Container Supplies & Services CC is a proudly certified as level 1 BEE.

BEE STATUS (LEVEL 1)
